## **Duo-tone Collection.**

Example of our design process using a monochrome picture. We create a filter that gives a poster effect and then colourize it. From here we add a grid and produce a duo-tone effect. As you can see from the blue and purple versions we can create various filters such as metallic or breakout effects. Of course if you require a design to reflect any of the design stages we can produce that item.

## Floral Delights

Soft pastel colours are used with these Victorian style illustrations.

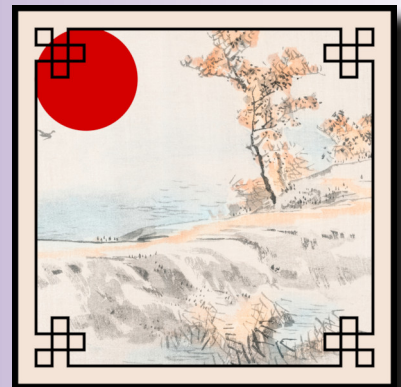

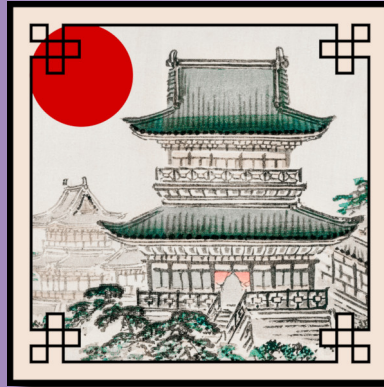

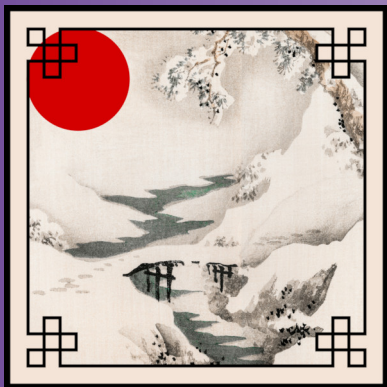

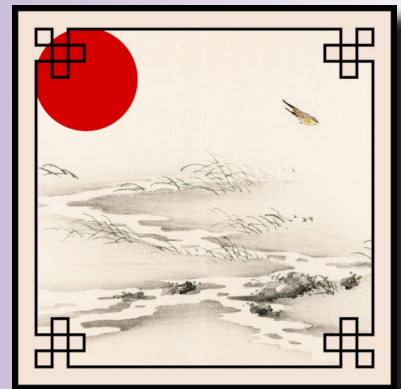

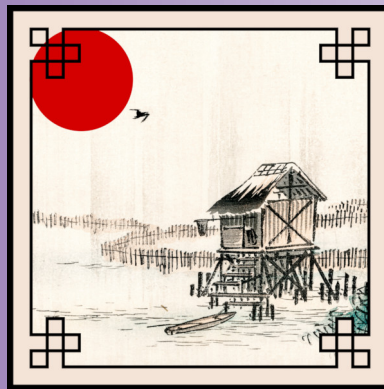

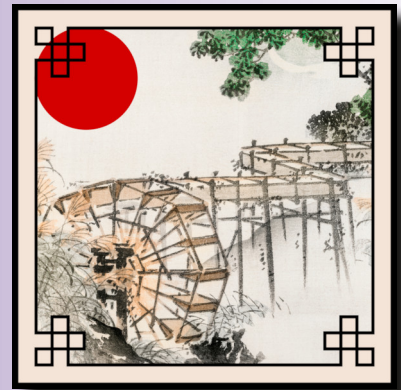

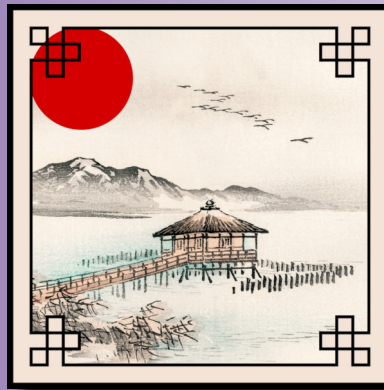

## Romance comics

A selection of comics from the golden age of Romance comics. Posters and throw pillows look wonderful with these designs.

## Japanese Rural Collection

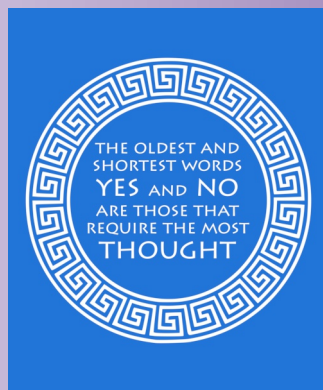

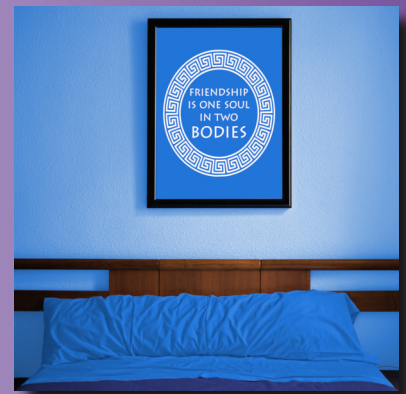

This specially curated collection is compiled from vintage prints of the Japanese countryside originally created by Kōno Bairei (1844-1895) as woodblock prints. An authentic style border has been added with the rising sun to compliment the composition.

## Pythagoras

Some of the most famous quotes from this Greek scholar are available in landscape and portrait alignments. The designs have the same blue as the Greek flag but are available in the colour of your choice.
